### **Juvenile Exposes Himself Near Elementary School**

Released: December 7, 2011  
Case No: 11-08533

On December 7, 2011, at 2:35 p.m., the Beaverton Police Department was called to a suspicious person near the William Walker Elementary School campus. Witness said he'd exposed himself.

When police arrived they learned a white, 17 year old juvenile was seen near the window of one of the school secretaries with his genitals in full view. The second incident occurred as another school employee was walking through the school parking lot when she saw the same subject. She told police she felt she was being followed so she moved away from the path she'd taken, to let him pass, only to realize he had a fully erect penis outside his pants.

Officers located the juvenile in Cedar Hills Park, just west of the school. He was released to a parent and charged with several crimes: Public Indecency, Disorderly Conduct II, Criminal Trespass II, Unlawful Possession of Marijuana (less than an ounce) within 1000 feet of a School and Minor in Possession of Tobacco. The case has been referred to the Washington County Juvenile Department.

The juvenile does not have any similar known history and has been trespassed from all Beaverton School District and Tualatin Hills Parks and Recreation properties.
